

# Sabbir Ahmed Sam

## WordPress Plugin Developer & AI Engineer

Dhaka, Bangladesh | Senior Software Engineer / Lead Developer, WPPOOL | Founder, WPazleen (wpazleen.com) | WordPress.org: devsabbirahmed / sambyte

---

### PROFILE

WordPress Plugin Developer and WordPress.org Core Contributor with 6 years' experience building production plugins and WooCommerce tooling used across thousands of sites. Leads engineering at WPPOOL while founding and running WPazleen, a six-plugin product line spanning data export/import, storefront display, AI chat, security, and forms. Works across PHP, React and Alpine.js frontends, and increasingly AI integration — RAG pipelines, AI agents, and MCP tooling — built directly into WordPress.

### EXPERIENCE

#### Senior Software Engineer / Lead Developer — WPPOOL

6 years | Remote

- Leads plugin architecture, REST API design, and WooCommerce integrations across the WPPOOL product line.
- Owns security remediation and WordPress.org guideline compliance across multiple plugins.
- Builds React and Alpine.js admin UIs on top of PHP (OOP) backends and Google Apps Script integrations.

#### Founder & Developer — WPazleen (wpazleen.com)

Ongoing

- Publishes and maintains six plugins: Post Export Import with Media (PEIWM), Shop Explorer / Product Display (StoreDisplay), AskAny AI Chatbot, Activity Guard, and SimpleForm.
- Owns product design, SEO, and the wpazleen.com design system end-to-end, from architecture to launch.
- Runs AI integration work — RAG, AI agents, MCP — on top of the existing plugin codebases.

### SKILLS

|              |                                                       |
|--------------|-------------------------------------------------------|
| Languages    | PHP (OOP), JavaScript, Python, C#, Java               |
| Frontend     | React, Vue, Alpine.js, SCSS                           |
